## I-70B Reconstruction Project Update

**Notice: No work on the project will be conducted during the Memorial Day weekend, starting Saturday, 5/28/11 through Monday, 5/30/11. Work will resume on Tuesday, 5/31/11.**

### Eastbound Through Lanes/Median Work:

Crews will be tying-in paving at the 24<sup>3</sup>/<sub>4</sub> Rd. and Centennial RV intersections through the end of this week ( Friday, 5/27/11). Crews will also be machine pouring the median curb through Friday, 5/27/11. Tie-ins for curb and gutter through our the project area will be placed starting Friday (5/27/11) and running through the end of next week (6/4/11).

**The work being conducted in the median area is making the project area appear more active and, to some, more confined. Although there is ample space for the work crews to conduct their activities within the barricaded median areas, PLEASE USE CAUTION AND DRIVE SLOWLY WHEN DRIVING BY WORK CREWS IN THE MEDIAN AREA AND CENTER LANES.**

Saw cutting and joint sealing will take place after the concrete work described above is finished (5/31/11 – 6/3/11).

The cover for the median will be poured at the end of next week (6/2/11 – 6/4/11).

Epoxy striping will be placed during the night on Friday and Saturday, 6/3/11 and 6/4/11.

### Frontage Roads:

Work on driveways and curb and gutter on the south and north frontage roads will continue through this week and next week (5/26/11 – 6/3/11).

### Sidewalks:

Sidewalk will be poured between Centennial RV and the old Office Depot starting today and continuing tomorrow (5/27/11). Sidewalk will also be poured between Taco Bell and MacDonald's on the north side of the road next week (timing of this work is dependent on placement of drainage improvements in this area).

## Landscaping and Streetscape:

Landscape crews will be coming in to portions of the project as the sidewalk is placed. Landscaping crews will have an on-going presence on the project until it is complete.

Electric crews will be setting light poles in the median today (5/26/11). Miscellaneous pedestrian and median lighting work is ongoing and will continue through next Friday (6/3/11).

That's the update for this week. Remember that the schedule described above is dependent on favorable conditions and could be delayed if the weather turns bad or machinery breaks down.
